BLACK TIE COLLECTION - A NEW ECCENTRIC EXPERIENCE

Black Tie Collection was born out of a passion to bring together the best products for a sophisticated lifestyle - a curated world with its own high and unique standards.

For over ten years, the founding team behind Black Tie, supported by the expertise of friends and companions, has put together spirits, clothing, tobacco products and porcelain for a group of over 400 fans and originally only produced for Friends & Family. The success and steadily growing demand were then the decisive motivator to continuously expand the collection and now make it accessible to a wide audience. However, the basic idea has remained the same: Every partner, every product in the collection has a personal connection to the founders. From friends - for friends.

BLACK TIE RUM MEETS PEDRO XIMÉNEZ 2011 L. E. 40% - 0,75 L

It must have taken a bit of luck for us to unearth a real treasure: The pure and extremely rare Pedro Ximénez 2011 matured for eleven years in solera barrels before it found its way to us. Bitter notes of nuts, fine cocoa and roasted coffee combine with the sweetness of honey, caramel and balsamic vinegar. In an elaborate distillation process, 40-year-old rum from the Caribbean and the 2011 were fused. The result is Fusion Perfect - an experience for the senses and only for a few, special connoisseurs, as they hold one of only 100 fine bottles in their hands.

The Black Tie Rum 2011 is packaged in a black lacquered premium box. The elaborately crafted glass cork is a particular highlight and underlines the special nature of this rum.

Thanks to our friend and expert in Italian specialties, Sauro Mariotti (owner of the renowned Rossini delicatessen in Hanover), we have found the best grappa to bring the relaxed lifestyle of the south back home. The Black Tie Grappa combines a slightly sweet taste with a pleasant tobacco note and tastes like evenings with good friends and inspiring conversations. Tested together on site in Italy and found to be good.

BLACK TIE TEA NO.1 L. E. - 70 g

Black Tea Lapsang

As a young officer, Sir Winston Churchill discovered his love for smoked tea and large-format cigars in Havana during the Cuban War of Independence in 1885. In the years that followed, he refined the tea recipe until he had found his personal blend. Black Tie and Skeisan have now followed in Churchill's footsteps and found the best smoked tea in the province of Fujian on the south-east coast of China. There, the black tea leaves are roasted according to ancient tradition in bamboo baskets over pine wood until they acquire their pleasantly smoky aroma. Black Tie Tea No.1 is the perfect accompaniment to a good cigar, but is also a revelation on its own or with some exquisite chocolate. Some aficionados even find the taste experience is reminiscent of a good whiskey that has aged over years.

With Black Tie Tea No.1, Black Tie Collection has set a new benchmark for smoked teas in cooperation with the Düsseldorf tea brand Skeisan. The extensive search for the right tea leaves and the best processing have paid off - the result is a blend that exceeds all expectations.
